IT Total Care

IT Total Care, Inc. is committed to providing dependable Computer Support to growing businesses. With Computer Support that is designed, created and implemented according to your unique business processes, you can get back to what you love – running your business.

Our team of professionals are experts in Managed Services, so you can count on us to provide all the support and service you need for your business in San Mateo, CA.

Demand Services

As a small business, you may not need a lot of IT support. But when you do need it, you need it NOW. Unfortunately, the last minute is not the best time to find a quality IT service provider. Get ahead of the game by lining up your technology a-team before disaster strikes.

Managed IT Services

When something goes wrong with your IT, everything grinds to a halt. With a standard break/fix contract, you have to wait for something to break before your provider can fix it. That equation seems to make sense, but it leaves you worrying about when and where downtime will strike – and how much it's going to cost.

IT services from IT Total Care

Peace of mind – your systems are monitored 24/7

Less downtime – we identify and fix issues before they cause problems

Fewer disruptions – we provide most services remotely or overnight

Predictable budgeting – a flat monthly fee covers everything

VoIP for small businesses

As a small business, you need every advantage you can get to compete against bigger companies with bigger resources. IT Total Care, Inc. is proud to provide our clients with a cost-effective, enterprise-class solution that is easy to use and manage.

Services

Many small businesses find it challenging to deploy, maintain, and protect their technology. Whether you're looking to keep IT costs predictable, avoid unexpected problems, communicate more effectively, or make a plan for business continuity, IT Total Care, Inc. has a solution for you.

Hassle-Free IT Department

IT Total Care, Inc. was founded in 2001 to augment the business objectives of small to mid-sized business in the greater San Francisco Bay Area by providing them with full-service IT outsourcing solutions, network administration and desktop support. With over 20 years of industry experience, we can take your business to the next level of operations, security and optimization. We strive to offer organizations of all markets including Architecture, Accounting, Financial, Legal, Non-Profit and many more cost effective IT support and solutions.
